

Organizational Profile Cambodian Rural Development Team

Background

The Cambodian Rural Development Team (CRDT) is a local development NGO which aims to lift communities out of poverty in support of conservation through participatory community-based approaches. All of our initiatives are aimed at improving sustainable livelihoods and the well-being of rural subsistence farmers including marginalized indigenous people. Since 2001, CRDT has been working to improve and diversify sustainable agriculture to both lift people out of poverty and protect natural resources from over-exploitation. Since 2006, CRDT has developed its social enterprise program aiming to both fundraise for the organization to be gradually self-reliant while promoting life-skills and enterprise-based development for its target beneficiaries.

Since 2004, CRDT have delivered community and rural development to over 7,000 families in support of conservation of the biodiversity and critically endangered Mekong River Irrawaddy Dolphins in Kratie and Stung Treng, and the protection of tropical forest biodiversity in Mondulhiri. CRDT was officially registered with the Ministry of Interior as a local NGO in 2005 and the original founding members of the organization are still involved in its management and governance.

CRDT today is a rural livelihood and environment focused organization implementing various projects on environmentally appropriate agricultural development, increasing food security, supporting market linkages and income generation, environmental education, climate change adaptation, water and sanitation, renewable energy technologies, eco-tourism, micro-credit and community empowerment.

Vision: A Cambodia free from poverty and environmental degradation

Mission: To sustainably improve food security, incomes, and living standards of subsistence rural communities in support of environmental conservation throughout Cambodia

Goal: To provide sustainable livelihood development through community organization, business growth and environmental protection.

Values:

Neutrality: independent, non-political and not for profit

Cooperation: committed to working in partnership

Participation: encourages the active engagement of team members and beneficiaries in decision-making and development

Accountability: respects the rights and dignity of Cambodia's impoverished rural people by living and working within beneficiary communities

Empowerment: values its team members and beneficiaries and commits to supporting and empowering them to be confident and self-reliant

Environmental Responsibility: values Cambodia's natural environment and recognises the importance of protecting it for present and future generations

Transparency: committed to transparency and aid effectiveness.

Organizational History

Belonging to the first educated generation after the Khmer Rouge period, the 5 founders of the Cambodian Rural Development Team (CRDT) were disadvantaged rural children. Access to education was an uphill struggle. Hard work saw our founders meeting at university, and being in the minority coming from underprivileged backgrounds, they banded together as a team. They developed a shared vision for the future of Cambodia – ‘one free from poverty and environmental degradation’ as they found that in Cambodia few rural people survive entirely on what they produce from their own land. They supplement their livelihoods by hunting, fishing or gathering forest products. But overfishing and deforestation are threatening both this way of living and ecosystems. The Mekong River Dolphin and many other critically endangered species are on the verge of extinction due to destructive natural resource usage.

Our founding members experienced poverty first hand in their youth, and saw how closely linked poverty is to natural resources. If livelihoods are tied to environmental issues, a population exploding after years of atrocities means more people sharing Cambodia’s natural bounty. This free-for-all of natural resource exploitation cannot last.

Founded in 2001 as a voluntary university-student initiative, called at that time the Cambodian Volunteer Rural Development Team (CVRDT), the strong motivation, deep technical expertise and hard work of the team resulted in the rapid growth of the organization. Through securing partnerships with large international organizations, CRDT changed from implementing one-off projects, to sustained integrated programs covering a variety of livelihood, natural resource management, and community development components. These aim to raise living standards and contribute to environmental conservation.

Target Areas

Stung Treng Province

Project location: 6 communes with 16 villages in Siem Bok District and 4 communes with 21 villages in Ramsar Site

Beneficiaries: total direct beneficiaries: 3,000 families

Total indirect beneficiaries: 7,498 persons

Kratie Province

Project location: 5 communes with 26 villages in Sambo District, 7 communes in Chetborei District, 2 communes in Prek Prosob District, 3 communes in Chhlaung District, 6 communes in Kratie Town

Beneficiaries: total direct beneficiaries: 3,500 families

Total indirect beneficiaries: 17,500 persons

Mondulkiri Province

Project location: 2 districts Keo Seima and Oh-Rang with 6 villages

Beneficiaries: total direct beneficiaries: 427 families

Total indirect beneficiaries: 1,708 persons

Global

Total direct beneficiaries: 6,927 families (up to 2015)

Total indirect beneficiaries: 28,000 persons

Programs

Since 2005, through securing partnerships with large international organizations such as the World Wildlife Fund (WWF) and Wildlife Conservation Society (WCS), CRDT has changed from implementing one-off projects, to sustained integrated programs covering a variety of sustainable livelihoods, natural resource management, and community development. These aim to reach the two intertwined goals which are to raise rural living standards and to contribute to environmental conservation. To this end, CRDT undertakes integrated community development projects through two programs:

1. Sustainable Livelihood Development

Within this program, 5 components are usually integrated into a livelihood development project undertaken by a team of experts.

Food Security: Supporting livestock, aquaculture and vegetable production, and increasing the yield of rice crops in order to ensure communities have access to a protein-rich and varied diet, and to diversify food sources to equip villagers to adapt to a changing climate.

Income Generation: Adding another step beyond reaching food security, enabling farmers to identify value chains and directly access markets for their produce in order to generate income to raise standards of living. Also, diversifying income through the creation of small agricultural businesses and ecotourism.

Water and Sanitation: Addressing chronic health problems associated with lack of water, CRDT provides construction of water supply systems, open wells and rain water collectors to provide communities with access to cleaner drinking water. Canal building and restoration and river hand pumps provide farmers with access to water for crop irrigation and build climate change resilience. Toilet construction aids hygiene and health of both the villagers and the environment.

Renewable Energy: Working to reduce climate change through using solar power, micro-hydropower to generate electricity, and installing bio-digesters of our own design to capture methane gas from manure which is then used for lighting, cooking fuel and producing organic fertilizer.

Environmental Education and Waste Management: Demonstrating how livelihoods link to sustainability, enabling communities to value their environment, reduce exploitation and manage their natural resources responsibly, at a time of climatic uncertainty.

2. Social Enterprises

Our four enterprises apply commercial strategies to improve human and environmental well-being as well as generating profits to help fund for CRDT's Livelihoods Program.

Conversation With Foreigners (CWF): is an English center providing conversational English-language courses to local students and supporting quality volunteer experiences for English-speaking foreigners while raising money for CRDT's work.

Cambodian Rural Development Tours (CRDTours): specializes in offering unique travel experiences in Cambodia in particular the northeastern provinces of Kratie, Stung Treng and Mondulki. All funds generated from the tours directly support CRDT. Each tour activity is making a positive contribution to the places tourists visit and the locals they meet.

Le Tonlé: is a vocational training center offering local poor and disadvantaged youth a professional training in tourism and hospitality thereby increasing their employment opportunities. With two guesthouses and restaurants open to tourists, the students put their theoretical learning into practice while generating some profit to support CRDT's activities.

Mekong Credit Association (MCA): is a program to provide financial solutions for the poor. This program aims at supporting women's groups and empowering them to be economically self-reliant through job creation and enterprise development. Using SHGs as a platform, the objective of MCA is to help SHG members to improve their socio-economic status and contribute towards community development and natural resource conservation.

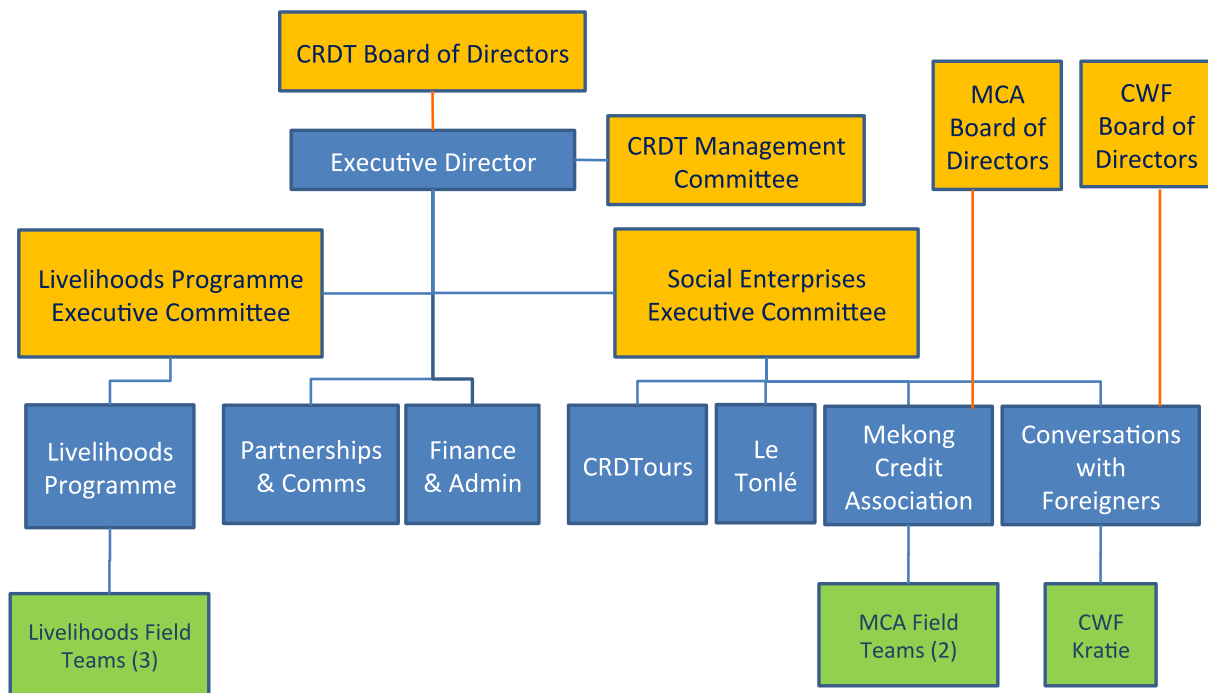

CRDT's Approach

CRDT addresses poverty by working on the following five processes.

- 1. Living & Working in the Field:** CRDT is unique in that staff resides in the target villages for extended periods of time, in order to ensure activities are successful and to build relationships with communities.
- 2. Learning by Doing:** To ensure effective transfer of knowledge, all beneficiaries implement project activities themselves. The ripple effect ensures experience is disseminated throughout the target village.
- 3. Practicing & Adapting:** CRDT are always adapting and learning. Methods of implementation, facilitation and participation are continually refined, as well as being revised to suit differing environments.
- 4. Linking Development & Conservation:** Poverty alleviation and environmental sustainability are the two intertwined goals of CRDT. Working in high priority areas for conservation, CRDT supports alternative livelihood activities to reduce natural resource dependency.
- 5. Sustainable Enterprise:** CRDT are forward-looking, taking an enterprise approach to development for both the organization and the beneficiaries. Using concepts of stewardship and sustainable income, CRDT can plan for the long-term.

Management Structure

CRDT's organizational structure is developed to ensure good governance, accountability and transparency. To ensure effective operation of the organization, the management structure is clearly divided into 3 levels of governing authority which include 1) Board of Directors, 2) Management Committee and Programs Executive Committees, and 3) Office and Field teams. Below is CRDT organizational structure as of March 2015 onwards.

The Board of Directors: is a voluntary committee that is responsible for ensuring the transparency and good governance of the organization, as well as providing strategic directions and management supports. It was established in March 2008, being largely made up of supporters and partners of CRDT. It consists of between 5 and 7 members, and meets 3-4 times a year.

The Management Committee (MC): The main responsibilities of the MC include developing the organizational plan and strategy, fund raising, networking and public relations, organizational review and program evaluation, managing program implementation and executing the management plan. The MC develops and implements the organizational plan, and ensures the proper and effective operation of the organization.

The Programs Executive Committees: both committees meet monthly. The main responsibilities on the committees include supporting the responsible managers to take decisions, to evaluate the financial and operational performance, to approve the strategies, plans and budgets of their program or enterprise.

Office and Field Staff: Office and Field Staff are the key body which supports management in implementing the organizational plan and strategies at the project level. The main tasks include the preparation and implementation of project work plans and budget plans, report writing, conducting project need assessments/research and monitoring and evaluation.

Staff

The current board consists of the following members:

Name	Nationality	Current Country of Residence	Current Jobs	Contacted Address
Dr. Alex Diment, Chairman	Australian	Cambodia	Deputy Country Director, Wildlife Conservation Society (WCS)	Tel: +855 12 454 554 Email: adiment@wcs.org
Mr. Marc Wancer, Member	American	USA	Vice President, CDFI Assessment and Rating System Inc. (CARS™)	Tel: 1 917 669 9526 Email: mwancer@gmail.com
Ms Chun Sothany, member	Cambodian	Cambodia	Chief Finance Officer, First Finance Plc Cambodia	Tel: +855 12 790679 Email: sothanyc@firstfinance.biz
Mr. Tuy Sereivathana, member	Cambodian	Cambodia	Country Representative, Fauna & Flora International	Tel: +855 16 833 838 Email: Vathana.t@gmail.com
Mr. Leang Rattana	Cambodian	Myanmar	Country Representative, Ericsson Cambodia Head of HR, Ericsson Myanmar	Tel: +855 15 455 542 +959 425 276 976 (Myanmar) Email: rattanaleang@yahoo.com

Management Committee members:

Name	Nationality	Current Country of Residence	Position	Contacted Address
1. Mr. Or Channy	Cambodian	Cambodia	Executive Director	+855 12 454 636 or_channy@crdt.org.kh
2. Mr. Hean Pheap	Cambodian	Cambodian	Livelihood Advisor	+855 11 606 131 hean_pheap@crdt.org.kh
3. Mr. Chann Sarith	Cambodian	Cambodian	Finance and Admin Manager	855 12 866 331 finance_admin@crdt.org.kh
4. Mr. Sut Samedy	Cambodian	Cambodian	Chief Manager, Micro-credit	+855 11 608 050 sutsamedy@crdt.org.kh
5. Ms. Ul Socheat	Cambodian	Cambodian	Partnership & Communication Manager	+855 12 924 016 ulsocheat@crdt.org.kh

Funding

CRDT's current resources mobilization depends for 90% on institutional grants from aid agencies, embassies, development agencies and conservation agencies. It has allowed the organization, in last five years, to increase its annual budget from \$150,000 to \$700,000. Most of the donors have showed satisfaction with CRDT's work and funded it for two rounds or more.

CRDT also raise fund through partnerships with WWF and WCS in which CRDT has been subcontracted as local partners to implement partial project activities. Likewise, CRDT raise fund through offering consultancy services on agriculture and tourism to some other institutions.

CRDT has also from 2006, created social enterprises which allows it to raise some fund to support the projects and the management costs.

Private donation represents the least portion of fund we raise. It is done through a project on GlobalGiving and Donation Box.

Find below profile of our donors:

Dates, Project	Project, Location	Donors/Partners	Government Agencies	Beneficiaries
2014-2017	Sustainable Economic Alternatives in Mondulkiri	One Action		3 villages in Mondulkiri Province
2014 - 2017	Development of alternative income generation options in support of forest conservation in 7 villages in Prey Lang Landscape	Winrock		7 villages in Prey Lang landscape, Kratie Province
2014	Demonstration plots of agroforestry and tree nurseries	Forestry Administration	FA	4 villages in Mondulkiri and Kratie Provinces
2014-2015	Supporting the Organizational Development of a Cambodian local NGO specialized in Sustainable Livelihood Development in Critical Biodiversity Hotspots towards Efficiency and Sustainability of Operations, Head Office	CEPF		Organisational Development
2012-2015	Biodiversity Conservation and Sustainable Use of Mekong Wetlands	WWF	Agriculture department, Rural Development Department, commune council	21 villages in Ramsar site of Stung Treng province and 17 villages in Central Section in Kratie province. Estimated Beneficiaries, 2285 beneficiaries included 1143 women at Ramsar site and 4275 beneficiaries included 2146 women.
2012-2014	Sustainable Development to Support Forest Conservation for Ethnic Bunong Communities	AusAID/ CDF	Agriculture, Rural Development departments, commune council	6 villages in 4 communes in the Keoseima District of Mondulkiri Province (Andong Kraloeng village in Sen Monorom commune, O Ranaa, Sre Levi and Sre Khtum villages in Sre Khtum commune, Gati village in Sre Prash commune, and Chak Char village in Sre Chhuk commune)
2013-2015	Community Resilience and Food Security Project	TCF/Live&Learn and PADEK	Water Recourse and Metheology, Agriculture Departments, commune council, VDC	6 villages in Sambour districts Kratie province
March 2013- Feb 2014	Water for sustainable agriculture and alternative livelihood development	JAPAN Embassy Cambodia/ KUSANONE	Provincial Department of Rural Development, commune council.	Kampong cham commune, Sambour district, Kratie province.
1st September 2011 – 30th November 2012	Developing Adaptive Capacity to Climate Change in the Critical Mekong Conservation Area.	UNDP/CCBAP	Water Recourse and Metheology, Agriculture Departments, commune council, VDC	5 villages in two communes (Koh Knhae, and Boeng Char) located in the critical Biodiversity conservation area along the Mekong mainstream in Sambo district, Kratie Province, Northeast Cambodia
2011-2013	'Improving Energy Access and Reducing Poverty in Support of Biodiversity Conservation along the Upper Mekong River'	EEP (Energy and Environment Partnership)	Department of Industry, Mine and Energy, Rural Development commune council	Local community in Koh Preah village, community in Sre Krasang village, Stung Treng Province

2010-2013	Dolphins for Development: a chance for Mekong wetlands conservation	WAP	Agriculture, Rural Development departments, Commune Council	14 villages in Siembok district, Stung Treng province and 16 villages in Sambour district, Kratie province
2010-2012	To increase the capacity of two Mekong communes to plan and manage environmental action, in order to generate income, increase environmental awareness, manage waste, improve sanitation and environmental conditions and protect two important areas for biodiversity.	IPADE	Provincial government, Department of Environment of Kratie and Stung Treng Province, Commune Councils, local authorities	Villagers of Kampong Cham commune, Sambo district, Kratie and Koh Preah commune, Siembok district, Stung Treng Provinces
2010-11	Conservation through Literacy Programme	World Education/WCS	Department of Youth and Sport and local authority.	Two villages of Sre Ktum and Sre Preas commune, Keo Siema district, Mondolkiri province.
2009-10	Dolphins for Development through CBO establishment	Oxfam GB	Department of Agriculture, Department of commercial, Fishery administrative, and local authority	13 villages of Five communes in Siem Bouk district, Stung Treng province.
2009-10	Dolphins for Development: Community Education and CBO Strengthening in Support of Wetlands Conservation	Wetlands Alliance Programme	Department of Environment , Department of Agriculture, and local authority	One village of Koh Preas commune, Siem Bouk district, Stung Treng province and three villages of of Kompong Cham and Sambo commune, Sambo district, Kratie province.
Jul 2010 – Jun 2014 Jan – Dec 2011	Rural Development and empowerment for marginalised communities dependent on a vulnerable wetlands site in Stung Treng – Thalaborivat and Stung Treng district	Critical Ecosystem Partnership Fund (CEPF) Ramsar Small Grant	Department of Agriculture, Department of Rural Development, Department of commercial, Department of Environment and local authority	12 villages of four4 communes, Tala Borivat and Stung Treng district, Stung Treng province.
Jul – Dec 2010	“Dolphins for Development”: CRDT Livelihood activities in support of Mekong Conservation, Saimbok in Stung Treng and Sambo in Kratie	WWF Cambodia	Department of Agriculture, Department of Rural Development, Department of commercial, Department of Tourism and local authority	Nine villages of Kompong Cham communes, Sambo district, Kratie province. Nine villages of six communes, Siem bouk district, Stung Treng province.
Jul 2010 – April 2013	Sustainable Livelihoods for Mekong Biodiversity and Critical Wetland Resource Conservation	Critical Ecosystem Partnership Fund (CEPF)	Department of Agriculture, Department of Rural Development, Department of Environment, Department of Tourism and local authority	19 villages of four communes in Sambo district, Kratie province.
Jul 2010 – Jun 2012	Reducing Climate Change and Poverty for Communities along Upper Mekong River in Cambodia	Global Environment Facility (GEF/UNDP)	Department of mine and energy, Provincial government of	Villagers of six communes, Siembok district, Stung Treng province

			Stung Treng, commune councils and local authorities	
May – Dec 2010	Dolphins for Development: Chance for Survival Phase II (Stung Treng Province –follow up)	The ProVictimis Foundation	Department of Agriculture, Department of Rural Development, and local authority	Ten villages of four communes, Siem Bouk district, Stung Treng province.
Jun – Dec 2010	Integrated Development for Domrei Phong (IDDP) Phase II Extension	AusAID Community Development Fund (CDF)	Department of Agriculture, Department of Rural Development, Department of Environment and local authority	Eight villages of Domrey Phong commune, Chhlong district, Kratie province.
December 2009- May 2010	Dolphins for Development: Chance for Survival Phase II Kratie Nine villages in Kratie province (Follow up)	Fundacion Promocion Social de la Cultura, (FPSC)	Department of Tourism, commune council, local authorities, Kratie province	Villagers of Kampong Cham commune, Kratie province
January 2010- October 2010	Sustainable Land Use and Management for Ethnic Phnong Communities Project (Fourth Year) Andong Krolung and O'Ronna Villages, Mondulkiri Province Seima Biodiversity Conservation Area	Wildlife Conservation Society (WCS)	Provincial government of Mondulkiri, Forestry Administration of SCBA, commune councils and local authorities	Four villages of Keo Seima and O' Rieng Districts, Mondulkiri Province
January 2010 – December 2010	A hope for Biodiversity and Dolphin Conservation 10 villages	Global Environment Facility (GEF/UNDP)	Department of mine and energy, Provincial government of Stung Treng, commune councils and local authorities	Villagers of six communes, Siembok district, Stung Treng province
July 2009 – December 2009	Rural Solid Waste Management Action Seven villages in Kratie and 1 village in Stung Treng province	IPADE	Provincial government, Department of Environment of Kratie and Stung Treng Province, Commune Councils, local authorities	Villagers of Kampong Cham commune, Sambo district, Kratie and Koh Preah commune, Siembok district, Stung Treng Provinces
January 2009 – December 2009	Dolphins for Development through CSO/Micro Group Establishment: Change for Survival Phase II 13 villages in Stung Treng province	Oxfam GB Stung Treng	Provincial government of Stung Treng, commune councils and local authorities	Villagers of five communes, Siembok district, Stung Treng province
January 2009 – December 2009	Dolphins for Development: Community Education and CBO Strengthening in Support of Wetlands Conservation CBO Activities Based in: seven villages in Kratie Education activities target: nine villages in Kratie province and ten villages in Stung Treng	Wetlands Alliance Programme (WAP)	Provincial government, Department of Environment of Kratie and Stung Treng Province, Commune Councils, local authorities	Villagers of Kampong Cham communes, Sambo district, Kratie and five communes of , Siembok district, Stung Treng Srekro Sang

January 2009 – December 2009	Sustainable Land Use and Management for Ethnic Phnong Communities Project (ThirdYear) Andong Krolung and O'Ronna Villages, Mondulkiri Province Seima Biodiversity Conservation Area	Wildlife Conservation Society (WCS)	Provincial government of Mondulkiri, Forestry Administration of SCBA, commune councils and local authorities	Four villages of Keo Seima and O' Rieng Districts, Mondulkiri Province
January 2009 – June 2009	Waste Management for the Mekong Seven villages in Kratie	WWF Cambodia	Commune councils and local authorities of Kratie	Villagers of Kampong Cham commune, Sambo district, Kratie Province
March 2008 – December 2008	Dolphins for Development: Civil Society Pro – Poor Market Development for Alternative Livelihood Sustainability Nine villages in Kratie province	Oxfam GB Kratie	Provincial government, Department of Tourism, Commune Council of Kampong Cham, local authorities, Kratie Province	Villagers of Kampong Cham communes, Kratie Province
March 2008 – December 2008	Dolphins for Development: Civil Society Pro – Poor Market Development for Alternative Livelihood Sustainability Ten villages in Stung Treng Province	Oxfam GB Stung Treng	Provincial government, Department of Rural Development, Commune Councils, local authorities, Stung Treng province	Villagers of five communes, Siembok district, Stung Treng province
February 2008 – January 2009	WAP Programme for Environmental Education along the Mekong and CRDT Organizational Development Training Education activities based in: 9 villages in Kratie province and ten villages in Stung Treng Province	Wetlands Alliance Programme	Provincial government of Kratie and Stung Treng, Department of Environment of Kratie, commune councils, local authorities	Villagers of Kampong Cham commune, Sambo district, Kratie and villagers of five communes, Siembok district, Stung Treng province
February 2008 – January 2010	Dolphins for Development: Chance for Survival Phase II Stung Treng: Ten villages (five follow-up) in Stung Treng Province	The ProVictimis Foundation	Provincial Government, Commune Councils and local authorities of Stung Treng Province	Villagers of five communes, Siembok district, Stung Treng Provinces
February 2008 – January 2010	Integrated Development for Damrei Phong: Phase II Project Eight Villages in Damrei Phong Commune, Chhlong District, Kratie Province	AusAID Community Development Fund (CDF) The McKnight Foundation	Provincial government, commune council, local authorities of Kratie Province	Villagers of Damrei Phong commune, Chhlong district, Kratie province
January – December 2008	Sustainable Land Use and Management for Ethnic Phnong Communities Project (Second Year) Andong Krolung and O'Ronna Villages, Mondulkiri Province Seima Biodiversity Conservation Area	Wildlife Conservation Society (WCS)	Provincial government of Mondulkiri, Forestry Administration of SCBA, commune councils and local authorities	Two villages of Keo Seima and O' Rieng Districts, Mondulkiri Province
	Dolphins for Development: Chance for Survival Phase II Kratie Nine villages (three follow-up) in Kratie province	Fundacion Promocion Social de la Cultura,	Department of Tourism, commune	

December 2007 – November 2009		(FPSC)	council, local authorities, Kratie province	Villagers of Kampong Cham commune, Kratie province
September 2007 – August 2008	Kai's Village Orphanage Sustainable Farm Project Kompong Speu	Society for Orphan Support (SOS)	n/a	Children at Kai's village Orphanage, Kampong Speu Province
January 2007 – December 2007	Sustainable Land Use and Management for Ethnic Phnong Communities Project Andong Krolung and O'Ronna Villages, Mondulkiri Province Seima Biodiversity Conservation Area	Global Environmental Facility / UNDP Wildlife Conservation Society (WCS)	Forestry Administration of SCBA, commune councils and local authorities, Mondulkiri province	Two villages of Keo Seima and O' Rieng Districts, Mondulkiri Province
December 2006– November 2007	Integrated Development for Damrei Phong Project Eight Villages in Damrei Phong Commune, Chhlong District, Kratie Province	AusAID Community Development Fund (CDF) The McKnight Foundation Partners for Development	Commune council, local authorities of Kratie Province	Villagers of Damrei Phong commune, Kratie Province
January 2006 – December 2007	Dolphins for Development: Chance for Survival Ten villages in Kratie and Stung Treng Province adjacent to the six most important habitats for the remaining Mekong Irrawaddy Dolphin	The Pro Victimis Foundation, WWF Germany Cambodian Mekong Dolphin Conservation Project World Wildlife Fund Cambodia (WWF)	Commune councils, local authorities of Kratie and Stung Treng provinces	Ten Villages along the Mekong of Kratie and Stung Treng provinces
January 2006 – December 2006	Rural Development and Sustainable Agriculture in Support of Participatory Land Use Planning and Biodiversity Conservation Project Andong Krolung, Mondulkiri Province	European Commission / UNDP / SEARCA Wildlife Conservation Society (WCS)	Forestry Administration of SCBA, commune councils and local authorities, Mondulkiri province	Andong Kraloeng villagers of O' Rieng District, Mondulkiri Province
January 2005 – December 2006	Dolphins for Development II Chheuteal and Anlong Svay Villages, Stung Treng Province	NZ Aid, The Pro Victimis Foundation, Eau Clair Quebec-Cambodia Mekong Dolphin Conservation Project World Wildlife Fund (WWF)	Commune council, local authorities of Stung Treng province	Two villages of Preah Romkel commune, Stung Treng province
February 2005 – December 2005	Wedding Island Project Lngor Island, Stung Treng Province	Williamson Wedding Fund SEILA Programme, Commune Council	Village authorities	Koh Lngor village of Preah Romkel commune, Stung Treng province
October 2004 – September 2005	Training for Development Training and equipment purchase	Australian Embassy, Phnom Penh Direct Aid Programme (DAP)	n/a	CRDT staff
August 2004 – December 2004	Dolphins for Development Kampi Village, Kratie Province	AusAID Community Development Fund (CDF) MIVAC – Mines Victims And Clearance Trust Mekong Dolphin Conservation Project	Provincial government, Department of Tourism, Commune council, local authorities of Kratie province	Villagers of Kampi, Sambok commune, Kratie Province

		Wildlife Conservation Society (WCS)		
July 2004	Water Supply Project Toul Nub Village, Pailin Municipality	MIVAC – Mines Victims And Clearance Trust Cambodian Border Development Organisation	Local authorities	Villagers of Tom Nub, Pailin province
January - July 2004	Cooking with gas – Biodigester, water supply and farmer training project Tamoung Village, Takeo Province	AusAID Community Development Fund (CDF) University of Tropical Agriculture	District and commune authorities, Angkor Borei District, Takeo province	Villagers of Tamoung and Kom Hal, Takeo province
October 2002 – September 2003	Agricultural Training Centre Development Popeil Commune, Prey Veng Province	AusAID Community Development Fund (CDF) Maharashi Vedic University	n/a	MVU students
May-July 2002	Village education, and the installation of water and biodigester supply Lngeang Village, Kompong Cham Province	Australian Embassy, Phnom Penh Direct Aid Programme (DAP) Maharashi Vedic University	District and commune authorities of Pong Krek District, Kampong Cham province	Lngeang village of Ponghea Krek district, Kampong Cham province
